

ForceField® Dry Cleaning Fluid For Fine Fabrics

OVERVIEW

ForceField® Dry Cleaning Fluid is specially designed for applications for which water-based cleaners are not suitable. It can be used on silk and synthetic materials with the "S" (dry clean only) designation. In addition, this professional strength product will remove even the toughest oily and greasy stains that water-based cleaners can't.

HOW & WHY FORCEFIELD® DRY CLEANING FLUID WORKS

Oil and grease are generally insoluble in water, and solvents and/or emulsified surfactants are required to remove them from fabrics. **ForceField® Dry Cleaning Fluid** was developed to address the special cleaning needs of dry clean only fabrics and fibers. Combining natural citrus with other deep-cleaning solvents has created a product with superior grease and oil-lifting properties. Once the soil has been lifted from the surface, it can be blotted onto a cleaning cloth.

APPLICATIONS

Always test for compatibility by applying **ForceField® Dry Cleaning Fluid** to an inconspicuous area of the surface to be cleaned. As this is a solvent-based product, exercise proper caution by using it in a well-ventilated area. Do not use near flame, sparks, heated surfaces, or other potential sources of ignition.

For use as a spot remover, apply a small amount of **ForceField® Dry Cleaning Fluid** onto a clean white cloth and gently blot the stained area. Using either a clean dry portion of the cloth or another clean cloth, blot the area dry. It is recommended to blot from the outer edges of the stain towards the center of the stain. Repeat as needed to remove the stain. A hair dryer can be used to dry the cleaned area and help reduce ringing or shadows.

ForceField® Dry Cleaning Fluid can also be used to remove heavy grease and oil stains from water-safe fabrics. When used on water-safe fabrics, it is recommended to follow spot removal with use of **ForceField® Fabric and Upholstery Cleaner** to ensure that all residue has been thoroughly removed.

- **Safe for All Types of Fabrics**
- **Excellent Spot Remover**
- **Easy to Use; Dries Quickly**
- **Removes Heavy Grease and Oil Stains**
- **Clean Citrus Scent**
- **Use on Clothing, Upholstery, Rugs, and More!**
