- **Safe for All Types Water-Safe Carpets and Fabrics Fabric**
- **Repels Oil-Based & Water-Based Soils**
- **Easy to Use; Dries Quickly**
- **Will Not Alter the Look or Feel of Fabric**
- **Retards the Soiling Process**
- **Spills Simply Blot Up Without Staining**

## OVERVIEW

**FORCEFIELD® AQ WATER BASED CARPET AND UPHOLSTERY PROTECTOR** is a ready-to-use protector, which represents a large advance in water-based soil and stain repellent technology. The active ingredients in **FORCEFIELD® AQ Water Based Carpet and Upholstery Protector** are designed to repel spills and stains and to provide carpets and fabric with anti-soiling, stain release attributes that will enhance the beauty and the life of the fibers. The anti-soiling and stain release qualities of this protectant will keep the carpet from soiling as fast, which allows for a cleaner looking carpet with less cleanings needed. The stain release factors in this product allows for most stains and spills to be easily cleaned as the protector will help prevent the stains from actually attaching itself to the carpet or fabric fibers and permanently altering the color of the fibers.

## HOW & WHY FORCEFIELD®AQ WATER BASED CARPET AND UPHOLSTERY PROTECTOR WORKS

When a spill or soil contacts an unprotected fabric surface, the fibers within the fabric act like microscopic straws and draw the spill into the surface. Applying **ForceField®AQ Water Based Carpet and Upholstery Protector** to surfaces creates an extremely thin polymer barrier that prevents spills and soils from actually contacting the surfaces of the fibers. As a result, spills simply lie on the surfaces and can be easily blotted away before they have the opportunity to create a stain.

## APPLICATIONS

Always test for compatibility by applying **ForceField®AQ Water Based Carpet and Upholstery Protector** to an inconspicuous area of the surface to be treated. For best results, apply to new or clean surfaces. Protector, like all other water based soil and stain repellents must be handled with good industrial hygiene procedures that minimize the exposure of humans and animals. This product should not be aerosolized, which means that it should be applied with airless sprayers with less than 60 psi. Avoid breathing the mist. Treated surfaces are dry to the touch in 2 to 4 hours, and completely cured in 24 hours.

For applications where both UV and soil/stain protection is desired, **UV SunBlock™** can be used in conjunction with **ForceField®AQ Water Based Carpet and Upholstery Protector**. While order of application is not critical, we suggest that **UV SunBlock™** be applied first. To assure that surfaces retain a proper level of protection, they should be re-treated once per year, or after cleaning

### Coverage Amount:

Sofa 16oz	Carpet 1 gallon 200-250 Square Feet
Love Seat 12oz	Queen Mattress 12oz
Chair 8oz	
9 x 12 Rug 64oz	

HMIS Health: 1 Fire: 0 Reactivity: 0

pH: 7 -9

Solubility: Emulsifiable

Boiling Point: > 212 °F

Storage: Above 40 °F , Well-ventilated

Regulatory: Not Regulated

Appearance: Milky White Liquid

Odor: Mild Acrylic-like

Specific Gravity: 1.02

Chemical Family: Perfluorinated Alkyl Copolymer

Caution: Keep out of the reach of children.

Caution: Use eye safety wear / rubber gloves
