

ForceField® OdorBlaster™ for Fabrics

OVERVIEW

OdorBlaster™ for Fabrics is a powerful deodorizer that actually chemically binds itself to the odor, neutralizing it and rendering it odorless. It can be applied on textiles (carpet/fabric) to eliminate absorbed odors, or use it as a hand freshener to eliminate offensive odors such as onions or gasoline. Wherever foul odors are a problem, **OdorBlaster™ for Fabrics** is the quick and effective solution.

HOW & WHY OdorBlaster™ for Fabrics Works:

Odors are small unpleasant chemical molecules that travel through the air and are detected by the sensitive receptors of the nose. An odor can only exist if it can be detected by someone's nose. **OdorBlaster™ for Fabrics** works by making the odiferous molecules too large and heavy to become airborne. To do this **OdorBlaster™ for Fabrics** uses a specially modified organometallic salt that surrounds and binds to the most common odor-causing chemical molecules, essentially encapsulating the odor. This effectively and permanently destroys the ability of the molecules to be smelled.

APPLICATIONS

Carpet/Fabric Odors: Use only on water-safe fabrics. Always test fabrics for colorfastness by applying **OdorBlaster™ for Fabrics** to a small inconspicuous area then wiping with a clean white cloth. If liquid or solid wastes are present, remove them using a cloth, prior to spraying the odor-soiled area of fabric, carpet or upholstery with **OdorBlaster™ for Fabrics**. Odors will be eliminated without leaving tacky or soil attracting residues.

Room Air Odor Treatment: Most room air odors result from odor-causing substances present in and on items within the room. To neutralize room odors, identify the source of the odors and spray the area with **OdorBlaster™ for Fabrics**. Upon contact, odors will be eradicated.

Odors on Hands or Skin: **OdorBlaster™ for Fabrics** can be used as a hand freshener to eliminate malodors from the skin. To eliminate odors caused by gasoline, onions, fish, or other substances, simply spray onto a cloth, wipe hands using the cloth, and then rinse with water.

- **Rapidly Destroys Odors**
- **Nonhazardous & Environmentally Friendly**
- **Leaves No Tacky Residues**
- **Perfect for Fabrics, Apparel & Carpets**
- **Special Anti-Soiling Additive Controls Odors from Pets, Food & Smoke**

Available in the Following Sizes

22oz-RTU

5 GALLONS RTU

HMIS Health: 0 **Fire:** 0 **Reactivity:** 0

pH: 7.0 to 7.5

Solubility: Completely Water Soluble

Boiling Point: 100°C

Storage: Above 0°C, Well-ventilated

Regulatory: Not Regulated

Appearance: Clear Liquid

Odor: Mild, Light Citrus

Specific Gravity: 1.02 +/- 0.02 (8.50 lbs/gal)

Chemical Family: Organometallic Complex

Caution: Keep out of the reach of children.

Caution: Use on water-safe materials only.
