

# ForceField® Pet SpotBlaster™

## OVERVIEW

ForceField® Pet SpotBlaster™ has been specially designed to eliminate difficult to remove acid and organic stains associated with pets. It is also effective on acid stains caused by dyes and colorants that are contained in certain foods such as red wine, children's fruit beverages, and sports drinks. Safe to use on carpets, rugs, upholstery, draperies, pet beds, pet carriers, and other surfaces stained by pets, spills, food, or other soils.

## HOW & WHY PET SPOTBLASTER™ WORKS

Pet SpotBlaster™ combines three distinct chemical actions: stain reduction, odor neutralization, and anti-re-soiling. While many stain cleaners contain oxidizing bleaching agents that can bleach the color of the carpet or upholstery along with the stain, Pet SpotBlaster™ uses a different approach. A special stain-reducing agent eliminates stains without affecting the color of the fabric. The odor neutralizer actually binds to the odors, preventing them from entering the air. And, finally, a special polymer has been incorporated into this product to prevent re-soiling. This polymer actually blocks the sites where soils and stains attach to the fibers, acting as a re-soiling barrier.

## APPLICATIONS

Pet SpotBlaster™ can be used in homes on carpets, rugs, upholstery, draperies, pet beds, pet carriers, and other fabric surfaces that have been stained by pet waste, spills, food, or other soils. Pet SpotBlaster™ can also be used on automobile and boat carpets, cushions, vinyl surfaces, upholstery, and floor mats.

1. Remove loose or dry soil and blot up wet stains using a clean, white, absorbent, colorfast cloth or sponge.
2. Spray stained or soiled areas with Pet SpotBlaster™, wait for approximately 3 to 5 minutes, then, using a white absorbent cloth, blot up any excess moisture. Rinse cloth or sponge and repeat this step, if necessary, until the area is clean.

*Hint:* Gentle heat can help to draw out stubborn stains. Apply Pet SpotBlaster™ and use a hair dryer while blotting or cover the treated area with a clean, white cloth and lightly iron.

## Available in the Following Sizes

1 Gallon

5 Gallon

55 Gallon

- **Special Anti-Soiling Formulation (Keeps Carpet Cleaner Longer)**
- **Reduces Stain and Neutralizes Odors**
- **Non-Toxic, Solvent Free, and Bleach Free**
- **Safe for Nylon, Acrylic, and Other Synthetic Carpet Types**
- **Removes the Toughest Stains and Odors from Carpet, Upholstery and Draperies**
- **Convenient Ready to Use (No Mixing Needed)**

HMIS Health: 1 Fire: 1 Reactivity: 0

pH: 6.5 to 7.5

Solubility: Completely Water Soluble

Boiling Point: 100°C

Storage: Above 0°C, Below 50°C

Regulatory: Not Regulated

Appearance: Clear to Light Amber Liquid

Odor: Honeydew

Specific Gravity: 1.00 +/- 0.02 (8.34 lbs/gal)

Chemical Family: Formulated Blend

Caution: Keep out of the reach of children.

Caution: Keep away from eyes.
