

ForceField® ScumBlaster®

OVERVIEW

ScumBlaster™ is the most effective Tub & Tile Cleaner you will ever use. More than a bathroom cleaner, it can be used wherever hard water deposits or soap scum are a problem. Dull surfaces become shiny and squeaky clean. The cleaning power of **ScumBlaster™** is comparable to that of muriatic (hydrochloric) acid, yet this noncorrosive formulation is environmentally friendly, non-fuming, and safe for septic tanks. **ScumBlaster™** has the power to make hard water deposits, stains, scum, and grime disappear.

HOW & WHY SCUMBLASTER™ WORKS

Hard-water deposits and soap-scum residues on tubs, ceramic tile, and other hard surfaces are caused by the presence of calcium. Well water or hard municipal water sources makes these problems worse. **ScumBlaster™** has been formulated using an organic salt that was designed as a safe replacement for traditional acids in industrial applications. By combining this unique material with special low pH surfactants, **ScumBlaster™** has the ability to dissolve stubborn deposits and clean even the toughest stains, mold, or mildew.

APPLICATIONS

Because **ScumBlaster™** is such a strong cleaner, always test for compatibility with the surface to be cleaned by applying a small quantity of the product to an inconspicuous area. **ScumBlaster™** can be used on a wide range of surfaces: showers, tubs, tile, grout, fiberglass, plastic, glass, rubber, porcelain, vinyl, and a variety of synthetic surfaces. **ScumBlaster™** is excellent for use in homes, businesses, schools, boats, hotels, patios, and many other areas. Use care when applying to metallic or metal plated surfaces, as **ScumBlaster™** works upon contact on these surfaces and should be promptly and thoroughly rinsed after application. While not required, persons with sensitive skin should wear rubber gloves when using this product.

Spray **ScumBlaster™** onto the surface to be cleaned, wipe with a damp cloth or sponge, and thoroughly rinse with water. For tougher build-ups or stains, repeat application or wait 1 to 3 minutes before wiping and rinsing.

- **Deep Cleans Grout & Tile**
- **Removes Soap Scum, Stains & Grime**
- **Environmentally Friendly**
- **Safe on Most Hard Surfaces**
- **Noncorrosive, Non-Fuming**
- **No Bleach, Nonphosphate Formula**

Available in the Following Concentrated Sizes

1 Gallon

5 Gallon

55 Gallon

HMIS Health: 1 **Fire:** 0 **Reactivity:** 0

pH: Less than 1.5

Solubility: Completely Water Soluble

Boiling Point: 100°C

Storage: Above 0°C, Below 50°C

Regulatory: Not Regulated

Appearance: Clear Pale Yellow Liquid

Odor: Mild Sweet

Specific Gravity: 1.04 +/- 0.02 (8.67 lbs/gal)

Chemical Family: Organic Salt

Caution: Keep out of the reach of children.

Caution: Tightly close bottle when not in use.
