

ForceField®
Fabric De-Crease™
Wrinkle Relaxer
Wrinkle Relaxer for Fabrics

OVERVIEW

Fabric De-Crease™ offers the easy way to remove creases, wrinkles, and static from a wide range of water safe fabrics. With just a simple spray and a gentle stretch, wrinkles vanish. **Fabric De-Crease™** will not alter the color, texture, or feel of fabrics, and contains a special soil repellent that helps to prevent clothing, draperies, and other fabrics from re-soiling. **Fabric De-Crease™** is great for travel and other times when ironing is impractical.

HOW & WHY FABRIC DE-CREASE™ WORKS

Clothing and other fabrics can develop surface properties that lead to creases and wrinkles. The process of laundering can generate static with additional electrical charges that intensify these properties and create “static cling” as well as heavy wrinkling. The specially developed cationic and anionic surfactants within **Fabric De-Crease™** are designed to dissipate these forces by acting as an anti-static agent, while they also serve to soften, relax, and smooth out wrinkled surfaces. In addition, special anti-soiling agents within **Fabric De-Crease™** act to repel soils, helping to keep fabrics cleaner, longer.

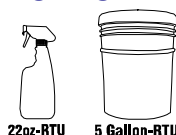

APPLICATIONS

Always test for compatibility with, and the colorfastness of, the surface to be treated by applying a small quantity of the product to an inconspicuous area and wiping with a clean white cloth. **Fabric De-Crease™** can be used on all water-safe fabrics, including: clothing, sheets, towels, rugs, sheers and draperies.

Fabric De-Crease™ is easy to use. Holding the sprayer approximately 8 inches from the surface, spray evenly over the wrinkled surface. After wetting, gently pull on the fabric to smooth away the wrinkles. Allow the treated surface to dry by hanging up the treated item, or laying it out on a smooth flat surface. More difficult wrinkles may require heavier application.

- **Removes Wrinkles With a Spray**
- **Leaves Fabrics Smooth & Outdoor Fresh**
- **Softens, Relaxes, Removes Static**
- **Replaces Ironing – Great For Travel**
- **Use on all Water-Safe Fabrics**
- **Ideal for: Clothing, Draperies & Other Fabrics**

AVAILABLE IN THE FOLLOWING SIZES

22oz-RTU 5 Gallon-RTU

HMIS Health: 1 Fire: 1 Reactivity: 0	Appearance: Clear Colorless Liquid
pH: 6.0 to 6.5	Odor: Mild Light Floral
Solubility: Completely Water Soluble	Specific Gravity: 1.00 +/- 0.02 (8.34 lbs/gal)
Boiling Point: 100°C	Chemical Family: Nonionic/Cationic Surfactant
Storage: Below 50°C, Well-ventilated	Caution: Keep out of the reach of children.
Regulatory: Not Regulated	Caution: Avoid contact with eyes.
