

Shaw® R2x® - RTU Carpet Stain & Soil Remover

OVERVIEW

R2x Stain & Soil Remover is the most effective carpet cleaning product available for both commercial and residential carpets. For the toughest high traffic areas, this is the product you want. It deep cleans to remove stains and soils, while enhancing stain resistance to keep carpeting cleaner, longer. Even old stains come clean, as **R2x Stain & Soil Remover** provides protection against reoccurring spots. **R2x Stain & Soil Remover** is formulated for superior performance as a spot cleaner, pre-spray extraction cleaner, or as an interim product for the encapsulation process. There is no reason to rinse, or use an acid rinse.

HOW & WHY R2X STAIN & SOIL REMOVER WORKS

While other cleaners can clean with varying degrees of success, they may leave behind a residue. This residue can act like a dirt magnet and attract soils and dirt, causing re-soiling of the area. **R2x Stain & Soil Remover** is different. By combining specially selected nonionic and anionic surfactants with our unique fluorocarbon anti-soiling chemistry, **R2x Stain & Soil Remover** is able to deep clean carpet fibers while leaving a protective treatment on the surface. **R2x Stain & Soil Remover** does not have the soil-attracting residues that many other cleaners can leave behind. In short, **R2x Stain & Soil Remover** protects as it cleans. It helps carpets, rugs, and other fibers to stay cleaner, longer.

APPLICATIONS

Always test for compatibility with, and the colorfastness of, the surface to be cleaned by applying a small amount of **R2x Stain & Soil Remover** to an inconspicuous area. **R2x Stain & Soil Remover** can be used on all water-safe fibers and has both the WoolSafe® and Carpet & Rug Institute® (CRI) seals of approval. **R2x Stain & Soil Remover** is effective as a spotter, a pre-spray, in truckmounts supply tanks, or other types of carpet cleaners.

As a pre-spray allow **R2x Stain & Soil Remover** to dwell on the area for 5 to 10 minutes to penetrate into the fibers and loosen the soil. Used as a spotter spray soiled area, agitate, and blot with a clean white cloth. Allow the area to dry for 15 to 30 minutes. For stubborn stains, it may be necessary to repeat the cleaning process. If needed, softly brush or agitate the area during application.

- **Penetrates Deep Into Fibers**
- **Provides Soil & Stain Resist Properties**
- **Effective on Both Water-Based And Oil-Based Stains**
- **Provides Protection Against Reoccurring Spots**
- **C.R.I. & WoolSafe® Approved – Safe for Carpets**
- **Protective Barrier Helps to Prevent Re-Soiling**

Available in the Following Sizes

HMIS Health: 1 Fire: 0 Reactivity: 0

pH: 7.0 to 8.0

Solubility: Completely Water Soluble

Boiling Point: >100°C

Storage: Above 0°C, Below 50°C

Regulatory: Not Regulated

Appearance: Clear to Light Yellow Liquid

Odor: Pleasant, Sweet, and Slightly Fruity

Specific Gravity: 1.00 +/- 0.02 (8.34 lbs/gal)

Chemical Family: Aqueous Surfactant Blend

Caution: Keep out of the reach of children.

Caution: Use on water-safe materials only.
