

TOTALCARE

Carpet Safe HEAVY DUTY SPOTTER

- **Removes Difficult Residues Grease - Glues - Gum**
- **Penetrates Deep Into Fibers**
- **Enhances Soil & Stain Resist Properties of Carpets**
- **Effective on Both Water-Based And Oil-Based Stains**
- **Provides a Protective Barrier Helps to Prevent Re-Soiling And Recurring Spots**
- **C.R.I. & WoolSafe® Approved Safe for All Types of Water-Safe Carpets and Rugs**

OVERVIEW

TOTALCARE® Carpet Safe HEAVY DUTY SPOTTER provides professionals with an effective and safe method to remove grease, glue, adhesive residues, and other hard to remove residues and soils including chewing gum. **TOTALCARE® Carpet Safe HEAVY DUTY SPOTTER** is a non-solvent, water-based, pH neutral cleaner that is able to tackle some of the most difficult to remove residues from carpets in a manner that will not damage fibers and can actually enhance the stain resistance of the treated area. After grease or residues are removed, simply extract the cleaned area with fresh water and allow to dry.

HOW & WHY TOTALCARE® CARPET SAFE HEAVY DUTY SPOTTER WORKS

The combination of deep penetrating nonionic and anionic surfactants with our unique fluorocarbon anti-soiling chemistry, enables **TOTALCARE® Carpet Safe HEAVY DUTY SPOTTER** to loosen grease, grime, and sticky residues that can cling to carpet fibers, while leaving a protective treatment on the surface. **TOTALCARE® Carpet Safe HEAVY DUTY SPOTTER** does not have the soil-attracting residues that many other aerosol and liquid spot cleaners can leave behind. This product actually protects as it cleans, helping carpets, rugs, and other fibers to stay cleaner, longer.

APPLICATIONS

Always test for compatibility with, and the colorfastness of, the surface to be cleaned by applying a small amount of **TOTALCARE® Carpet Safe HEAVY DUTY SPOTTER** to an inconspicuous area. **TOTALCARE® Carpet Safe HEAVY DUTY SPOTTER** can be used on all water-safe fibers and has both the WoolSafe® and Carpet & Rug Institute® (CRI) seals of approval.

THIS IS A READY TO USE PRODUCT – DO NOT DILUTE

Removal of grease, grime, adhesive, or other residues affixed to carpet fibers:

1. Attempt to remove excess residues or clumps of grease or any loose soils by gently scraping the area with a smooth edge tool such as a carpet bone or spoon. Blot liquid or syrupy residues using a moist cloth. Use care not to enlarge the soiled area by working from outside the soiled area to inside, thus keeping the spill contained.
2. Spray, or carefully pour, a sufficient quantity **TOTALCARE® Carpet Safe HEAVY DUTY SPOTTER** to thoroughly wet the soiled area. Gently work the area using a tool with a smooth edge such as a carpet bone or spoon to loosen hardened materials. Do not scrub. Allow 5 to 10 minutes of dwell time to allow **TOTALCARE® Carpet Safe HEAVY DUTY SPOTTER** to penetrate fibers and further loosen the residues. Again, gently work the area using a smooth edged tool as noted above.
3. Blot the area with a moist clean white cloth to lift the loosened materials from the carpet. If excessive residues are still present, clean the cloth and repeat blotting. *
4. Once all residues are removed, clean any excess product from the carpet by extraction cleaning with only warm water. Allow the area to thoroughly dry prior to traffic.

**In the event of extremely heavy or stubborn materials it may be necessary to repeat steps 2 and 3 above multiple times to completely remove residues.*

Available in the Following Sizes

4oz-RTU

32 OZ.

1 GALLON

HMIS Health: 1 **Fire:** 0 **Reactivity:** 0

pH: 7.0 to 8.0

Solubility: Completely Water Soluble

Boiling Point: >100°C

Storage: Above 0°C, Below 50°C

Regulatory: Not Regulated

Appearance: Clear to Light Yellow Liquid

Odor: Pleasant, Sweet, and Slightly Fruity

Specific Gravity: 1.00 +/- 0.02 (8.34 lbs/gal)

Chemical Family: Aqueous Surfactant Blend

Caution: Keep out of the reach of children.

Caution: Use on water-safe materials only.
