

TOTALCARE

Carpet STAIN & SOIL Remover - CONCENTRATE

OVERVIEW

TOTALCARE® STAIN & SOIL Remover is the most effective carpet cleaning product available for both commercial and residential carpets. For the toughest high traffic areas, this is the product you want. It deep cleans to remove stains and soils, while enhancing stain resistance to keep carpeting cleaner, longer. Even old stains come clean, as **TOTALCARE® STAIN & SOIL Remover** provides protection against reoccurring spots. **TOTALCARE® STAIN & SOIL Remover** is formulated for superior performance as a spot cleaner, pre-spray extraction cleaner, or as an interim product for the encapsulation process. There is no reason to rinse, or use an acid rinse.

HOW & WHY TOTALCARE® CARPET STAIN & SOIL REMOVER WORKS

While other cleaners can clean with varying degrees of success, they may leave behind a residue. This residue can act like a dirt magnet and attract soils and dirt, causing re-soiling of the area. **TOTALCARE® STAIN & SOIL Remover** is different. By combining specially selected nonionic and anionic surfactants with our unique fluorocarbon anti-soiling chemistry, **TOTALCARE® STAIN & SOIL Remover** is able to deep clean carpet fibers while leaving a protective treatment on the surface. **TOTALCARE® STAIN & SOIL Remover** does not have the soil-attracting residues that many other cleaners can leave behind. In short, **TOTALCARE® STAIN & SOIL Remover** protects as it cleans. It helps carpets, rugs, and other fibers to stay cleaner, longer.

APPLICATIONS

Always test the surface to be cleaned for compatibility, and colorfastness, by applying a small amount of the **TOTALCARE® STAIN & SOIL Remover** to an inconspicuous area.

Spotter: Dilute 1:10 with water. Spray soiled area with **TOTALCARE® STAIN & SOIL Remover**, agitate, and blot with a clean white cloth. Allow the area to dry for 15 to 30 minutes. For stubborn stains, it may be necessary to repeat the cleaning process. If needed, softly brush the area during application.

Pre-Spray: Dilute 1:32 with water. Pre-spray diluted **TOTALCARE® STAIN & SOIL Remover** at 200 sq. ft per gallon. Agitation is recommended. Allow to dwell on the area for 5 to 10 minutes to penetrate into the fibers and loosen the soil. (Do not allow product to dry.) Extract using only clean hot water.

Encapsulation: Dilute 1:32 with water. Pre-spray diluted **TOTALCARE® STAIN & SOIL Remover** at 1000 sq. ft per gallon. Use appropriate equipment for agitation (counter cylindrical brushes recommended). A post vacuum is recommended after drying.

Available in the Following Sizes

32 oz. Concentrate

1 Gallon Concentrate

5 Gallon Concentrate

- **Concentrated Formulation For Economy & Efficiency**
- **Dilutes Up To 20 Fold**
- **Penetrates Deep Into Fibers**
- **Provides Soil & Stain Resist Properties**
- **Effective on Both Water-Based And Oil-Based Stains**
- **Provides Protection Against Reoccurring Spots**
- **C.R.I. & WoolSafe® Approved – Safe for Carpets**
- **Protective Barrier Helps to Prevent Re-Soiling**

HMIS Health: 1 Fire: 0 Reactivity: 0

H: 7.0 to 8.0

Solubility: Completely Water Soluble

Boiling Point: >100°C

Storage: Above 0°C, Below 50°C

Regulatory: Not Regulated

Appearance: Clear to Light Yellow Liquid

Odor: Pleasant, Sweet, and Slightly Fruity

Specific Gravity: 1.00 +/- 0.02 (8.34 lbs/gal)

Chemical Family: Aqueous Surfactant Blend

Caution: Keep out of the reach of children.

Caution: Use on water-safe materials only.
