## Carpet STAIN & SOIL Remover - RTU

### OVERVIEW

**TOTALCARE® Carpet STAIN & SOIL Remover** is the most effective carpet cleaning product available for both commercial and residential carpets. For the toughest high traffic areas, this is the product you want. It deep cleans to remove stains and soils, while enhancing stain resistance to keep carpeting cleaner, longer. Even old stains come clean, as **TOTALCARE® Carpet STAIN & SOIL Remover** provides protection against reoccurring spots. **TOTALCARE® Carpet STAIN & SOIL Remover** is formulated for superior performance as a spot cleaner, pre-spray extraction cleaner, or as an interim product for the encapsulation process. There is no reason to rinse, or use an acid rinse.

### HOW & WHY TOTALCARE® CARPET STAIN & SOIL REMOVER WORKS

While other cleaners can clean with varying degrees of success, they may leave behind a residue. This residue can act like a dirt magnet and attract soils and dirt, causing re-soiling of the area. **TOTALCARE® Carpet STAIN & SOIL Remover** is different. By combining specially selected nonionic and anionic surfactants with our unique fluorocarbon anti-soiling chemistry, **TOTALCARE® Carpet STAIN & SOIL Remover** is able to deep clean carpet fibers while leaving a protective treatment on the surface. **TOTALCARE® Carpet STAIN & SOIL Remover** does not have the soil-attracting residues that many other cleaners can leave behind. In short, **TOTALCARE® Carpet STAIN & SOIL Remover** protects as it cleans. It helps carpets, rugs, and other fibers to stay cleaner, longer.

### APPLICATIONS

Always test for compatibility with, and the colorfastness of, the surface to be cleaned by applying a small amount of **TOTALCARE® Carpet STAIN & SOIL Remover** to an inconspicuous area. **TOTALCARE® Carpet STAIN & SOIL Remover** can be used on all water-safe fibers and has both the WoolSafe® and Carpet & Rug Institute® (CRI) seals of approval. **TOTALCARE® Carpet STAIN & SOIL Remover** is effective as a spotter, a pre-spray, in truckmounts supply tanks, or other types of carpet equipment.

As a pre-spray allow **TOTALCARE® Carpet STAIN & SOIL Remover** to dwell on the area for 5 to 10 minutes to penetrate into the fibers and loosen the soil. Used as a spotter, spray soiled area, allow dwell time, agitate, and blot with a clean white cloth. Allow the area to dry for 15 to 30 minutes. For stubborn stains, it may be necessary to repeat the cleaning process. If needed, use a carpet tamping brush to agitate the area.

### Available in the Following Sizes

4oz-RTU

32 OZ.

- Penetrates Deep Into Fibers
- Provides Soil & Stain Resist Properties
- Effective on Both Water-Based And Oil-Based Stains
- Provides Protection Against Reoccurring Spots
- C.R.I. & WoolSafe® Approved – Safe for Carpets
- Protective Barrier Helps to Prevent Re-Soiling

**HMIS Health:** 1 **Fire:** 0 **Reactivity:** 0

**pH:** 7.0 to 8.0
