

TOTALCARE

Hard Surfaces Microfiber Mop Kit

OVERVIEW

TOTALCARE® Hard Surfaces Microfiber Mop Kit is a great way to maintain and revitalize a variety of hard surfaces. The **TOTALCARE® Hard Surfaces FLOORING CLEANER** which comes with this kit is specially formulated for cleaning all types of hard surface flooring including Hardwoods (with polyurethane finish), Ceramics, Laminate and Vinyl Flooring. It is ideal for removing dirt, grease, and scuffs. Leaves floors sparkling clean with no sticky or dulling residue. This product is designed to be used at full strength as packaged. There is no need to rinse this product. *Please see 2nd and 3rd page of this document for additional specifications on the microfiber mop.*

HOW & WHY TOTALCARE® HARD SURFACES FLOORING CLEANER WORKS

While other cleaners can clean with varying degrees of success, they may leave behind a residue. This residue can act like a dirt magnet and attract soils and dirt, causing re-soiling of the area. **TOTALCARE® Hard Surfaces FLOORING CLEANER** is different. By combining specially selected nonionic and anionic surfactants with our unique fluorocarbon anti-soiling chemistry, **TOTALCARE® Hard Surfaces FLOORING CLEANER** is able to clean floors while leaving a protective treatment on the surface and eliminating the soil-attracting residues that other cleaners can leave behind. Because of this, it helps floors to stay cleaner, longer.

APPLICATIONS

To be used in daily or weekly floor maintenance care. Always sweep or vacuum floor to remove loose dirt before cleaning. Lightly mist a 4' x 4' area of floor surface. Do not saturate floor. Using a back and forth motion, wipe mist off of the floor with a clean microfiber mop. Finish one area before moving to the next. When microfiber pad becomes soiled replace it with a clean one.

This product is suitable only for hardwood floors with a polyurethane finish.
Do not use on unfinished/unsealed or waxed wooden floors.

Available in the Following Sizes

32 OZ. RTU

- Brightens and Preserves Finishes
- Leaves No Sticky or Dulling Residues
- Safe for Polyurethane Finished Hardwoods, Laminates, Ceramic and Vinyl Flooring
- No Need to Rinse
- Removes Scuffs, Dirt and Grease

HMIS Health: 1 **Fire:** 0 **Reactivity:** 0

pH: 7.0 to 8.0

Solubility: Completely Water Soluble

Boiling Point: >100°C

Storage: Above 0°C, Below 50°C

Regulatory: Not Regulated

Appearance: Clear Light Green Liquid

Odor: Pleasant, Sweet, Slightly Fruity

Specific Gravity: 1.00 +/- 0.02 (8.34 lbs/gal)

Chemical Family: Anionic Surfactant Blend

Caution: Keep out of the reach of children.

Caution: Use on water-safe materials only.

TOTALCARE

**Hard Surfaces
Microfiber Mop Kit**

MICROFIBER MOP BENEFITS

- **LIGHTWEIGHT & ERGONOMIC FRIENDLY**
- **MICROFIBER MOPS ARE MORE ABSORBANT THAN CONVENTIONAL MOPS**
- **POSITIVELY CHARGED MICROFIBERS ATTRACT DUST (Negative charge)**
- **TINY MICROFIBERS ARE ABLE TO PENETRATE AND REMOVE DUST & DIRT FROM MICROSCOPIC SURFACE PORES OF MOST FLOORING MATERIALS**
- **POLE EXTENDS UP TO 69"**
- **MOP HEAD HAS LOCKING ATTACHMENT TO CLEAN HARD TO GET PLACES LIKE WINDOWS**
- **MOP PADS CLEAN 20% FASTER THAN TRADITIONAL MOP & CAN PICK-UP BACTERIA WITH CHEMICALS**
- **GRABS AND HOLDS DIRT, DUST & GREASE**
- **LESS WATER COST**
- **LIGHTWEIGHT MOPS REDUCE STAFF INJURIES**
- **REDUCE SLIP & FALL ACCIDENTS**
- **CAN BE WASHED 100'S OF TIMES**

TOTALCARE

Hard Surfaces Microfiber Mop Kit

Why Microfiber is Superior to Traditional Cloth Mops

Microfiber is produced from polyester (cleaning fiber) and polyamide (absorbing fiber). These fibers go through a unique splitting process, which creates 90,000 fibers per square inch of woven cloth. The width of the fiber is measured at .10 denier. This measurement is 1/100th the size of a human hair. Traditional cloth is measured at 1.9 to 2.0 denier.

Cotton Cloth fibers are thick when compared to Microfiber and actually push chemicals, dirt, dust, and grime on the application surface. Microfiber can get underneath, lift, and trap particles into the webbed fibers until washed. The picture below is a good visual of how this works:

Using Your TOTALCARE® Microfiber Mop

- Select the proper microfiber mop pad for your application.

The Blue microfiber pad is designed to be used in wet applications.

The Turquoise microfiber pad is designed to be used in dry applications but can also be used on damp surfaces.

- Prior to using the **TOTALCARE® Hard Surfaces Microfiber Mop Kit** on surfaces, sweep or vacuum the area to remove loose dirt or debris. For wet/damp cleaning, lightly mist a small area of your floor with **TOTALCARE® Hard Surfaces FLOORING CLEANER**, taking care to not saturate the flooring.
- Using the mop with a back and forth motion, wipe the misted surface. Finish one area before moving onto the next area. When the mop becomes soiled, either replace it with a clean mop, or rinse the pad and continue.
- Proper cleaning of the mop pads:

Microfiber mop pads may be machine washed with laundry detergent, however, **DO NOT USE FABRIC SOFTENER** and **DO NOT WASH WITH OTHER ARTICLES OF CLOTHING**. Mop pads may also be hand washed in the sink, thoroughly wrung, and allowed to air dry. When properly cared for, mop pads may be washed and re-used up to 400 times.
