

TOTALCARE

Environmental Friendly "Green" Carpet STAIN & SOIL Remover – RTU

OVERVIEW

TOTALCARE® "Green" Carpet STAIN & SOIL Remover is U.S. E.P.A. approved for its DfE Design for the Environment Program, recognizing safer chemistry. In addition to being environmentally friendly this formula provides superior cleaning power and is approved for use on both commercial and residential stain resistant carpet, rugs, wool, and water safe fibers. **TOTALCARE® "Green" Carpet STAIN & SOIL Remover** can remove the toughest soils and stains, even old stains will come clean. Beyond its ability to effectively clean, what makes **TOTALCARE® "Green" Carpet STAIN & SOIL Remover** so special is that it provides protection against reoccurring spots. There is no need to rinse after use as this product leaves carpet fibers soft, never stiff or sticky. **TOTALCARE® "Green" Carpet STAIN & SOIL Remover** is formulated for superior performance as a spot cleaner, pre-spray extraction cleaner, or as an interim product for the encapsulation process.

HOW & WHY TOTALCARE® "GREEN" CARPET STAIN & SOIL REMOVER WORKS

While other cleaners can clean with varying degrees of success, they may leave behind a residue. This residue can act like a dirt magnet and attract soils and dirt, causing re-soiling of the area. **TOTALCARE® "Green" Carpet STAIN & SOIL Remover** is different. By combining specially selected nonionic and anionic surfactants with our unique anti-soiling chemistry, **TOTALCARE® "Green" Carpet STAIN & SOIL Remover** is able to deep clean carpet fibers without the worry of re-soiling. **TOTALCARE® "Green" Carpet STAIN & SOIL Remover** does not have the soil-attracting residues that many other cleaners can leave behind. In short, **TOTALCARE® "Green" Carpet STAIN & SOIL Remover** is an excellent cleaner for those interested in getting the best from a green cleaner. It helps carpets, rugs, and other fibers to stay cleaner, longer.

APPLICATIONS

Always test for compatibility with, and the colorfastness of, the surface to be cleaned by applying a small amount of the Spotter to an inconspicuous area. **R2x Green Stain & Soil Remover** can be used on all water-safe fibers and has Carpet & Rug Institute® (CRI) seal of approval. **TOTALCARE® "Green" Carpet STAIN & SOIL Remover** can be used as a spotter, a pre-spray, in truckmounts supply tanks or other types of carpet equipment.

As a pre-spray allow **TOTALCARE® "Green" Carpet STAIN & SOIL Remover** to dwell on the area for 5 to 10 minutes to penetrate into the fibers and loosen the soil. Used as a spotter, spray soiled area, allow dwell time, agitate, and blot with a clean white cloth. Allow the area to dry for 15 to 30 minutes. For stubborn stains, it may be necessary to repeat the cleaning process. If needed, use a carpet tamping brush to agitate the area.

Available in the Following Sizes

4oz-RTU

32 Z.
