HOW & WHY CORETEC® ENCORE LUXURY VINYL FLOORING CLEANER WORKS

While other cleaners can clean with varying degrees of success, they may leave behind a residue. This residue can act like a dirt magnet and attract soils and dirt, causing re-soiling of the area. **COREtec® ENCORE Luxury Vinyl Flooring Cleaner** is different. By combining specially selected nonionic and anionic surfactants with our unique fluorocarbon anti-soiling chemistry, **COREtec® ENCORE Luxury Vinyl Flooring Cleaner** is able to clean floors while leaving a protective treatment on the surface and eliminating the soil-attracting residues that other cleaners can leave behind. Because of this, it helps floors to stay cleaner, longer.
